Skylink Group Announces Disqualified Reseller and Unauthorized Reseller

Source: Skylink Technologies Skylink Group Announces Disqualified Reseller and Unauthorized Reseller

BRAMPTON, Ontario, July 12, 2010 (GLOBE NEWSWIRE) -- Skylink Group announces that Marwest Access Controls Inc. (Chatsworth, CA) was disqualified from selling Skylink products one year ago because they could not fulfill Skylink Group's standards of performance.

Mega Access Controls Inc. (Calabasas, CA) is not an authorized Skylink Group reseller.

However, both companies – Marwest and Mega – are still selling Skylink products through the existing websites www.aaaremotest.com and www.skylinkhomesecurity.com.

Skylink Group will not offer any support or service for products purchased from either of these companies including : Skylink Garage Door openers and accessories, Skylink Home Security products as well as Skylink Home Automation products and Skylink Lighting Control products.

Consumers who are interested in Skylink products should purchase them from our authorized dealers and retail stores to ensure they receive the appropriate product support and warranty.

About Skylink:

Skylink understands the needs and concerns of the homeowner in providing a safe haven and comfortable environment for their family. Established in 1990, Skylink has offices and warehouses in Brampton, Ontario, Canada; Ontario City, California, U.S. and Hong Kong. RF Design, electronic design, software design, mechanical design and graphic design departments for new and existing product lines are housed in the Hong Kong office and China engineering. Skylink also owns a manufacturing facility in China. More information can be obtained at <http://www.skylinkhome.com>
