### 5. Fabric Hose

The FATMAX Exojacket® Hose is a lightweight, industrial-grade hose. The Exojacket technology increases durability by serving as an external shield and is UV-protected. Titanium-coated forged aluminum repairable couplings allow damaged hose ends to be reattached. It is designed to withstand 600 psi.

### 7. Connected Garage Door Opener

The NOVA system allows standard garage door openers to connect to smart home systems. Through the SkylinkNet app for smartphones, users can connect to their garage door openers through Wi-Fi. It is also compatible with services like Amazon Alexa. The 12-watt LED light delivers the same brightness as a traditional 100-watt tungsten bulb.

### 8. Dehumidifier Tub

The Mossy Oak® Storage Zone™ Dehumidifier tub uses activated charcoal to eliminate odors and excessive moisture. It can be used in storage areas filled with damp items such as hunting gear and sportswear. Drying crystals gradually pull moisture from the air, while activated charcoal works against smells by trapping and absorbing odors. It is fragrance-free.
